Claims 4, 6 and 8 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claims 4 and 6 replace a step/part set forth in claim 1 from which they depend. Independent claim 1, drawn to the Fifth Embodiment (Figs. 23-25), recites "the said sub-TFT substrate processing step includes a step of forming a semiconductor film above the sub-TFT substrate". Dependent claim 4 replaces the above-mentioned step of independent claim 1 by reciting "the said sub-TFT substrate processing step includes the steps of forming a pixel electrode above the sub-TFT substrate, forming an orientation film for covering the pixel electrode, and joining a second substrate onto the sub-TFT substrate, and after the secondary cutting step, a step of sealing a liquid crystal between the sub-TFT substrate and the second substrate after the cutting is provided". Dependent claim 6 also replaces the above-mentioned step of independent claim 1 by reciting "the said sub-TFT substrate processing step includes at least one of the steps of performing corner cutting for the sub-TFT substrate after the primary cutting; and performing end face processing for the sub-TFT substrate after the primary cutting". In addition, dependent claim 8 replaces the above-mentioned step of independent claim 1 by reciting "in said sub-TFT substrate processing step, pattern alignment is performed by fusing a fiducial mark provided for each sub-TFT substrate".

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the

art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 3-8, 12 and 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification does not disclose the embodiments which have the combination of the Fifth Embodiment (amended claim 1) and the features recited in claims 3-8, 12 and 13. It is noted that the features, recited in claims 3-8, 12 and 13, are directed to the First, Second, Third or Fourth Embodiment.

It is suggested to delete the term "plurality" of the phrase "the plurality of device-forming regions" in claims 11-14 for the claim language being consistent with that of claim 1. In claim 10, line 3, it is suggested to change "lithe" to "the". In claim 11, line 2, it is suggested to change "panel," to "panels".

Claim 1 is allowed for the same reasons set forth in the last Office action. Claims 2, 10, 11 and 14 are also allowed because they depend on the allowed claim 1.

Claims 3-8, 12 and 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication should be directed to Tai Duong at telephone number 703 308-4873.
